

# Household 90w solar light

## Overview

---

Which solar panel is used for LED street light 90W?

We use reliable solar panel for our LED solar street light 90W with a high conversion rate from solar energy to electric energy. The battery is LiFePO4 lithium iron phosphate type, it has fast charging time and long lifespan with over-charged and over-discharged protection.

What is a 90W solar street light?

The 90W all in one solar street light built-in 54Ah high capacity 12.8V lithium iron phosphate battery which enhanced safety, strong thermal stability, tolerance to abuse, green, non-toxic, non-polluting, high current rating and 2000 cycle life.

How much power does a solar light use?

Power: 30W/60W/90W/120W. ⚡ All in one design. The solar panel, lighting source and battery are integrated in one light. More convenient for transportation and installation. 🌙 Switched by ambient light, turned off at dusk and turned at dawn automatically. Work smartly with motion sensor detector.

How many lumens can a solar street light produce?

This 90W integrated all in one solar street light can produce 11000 lumens as it equipped with 160pcs high quality LED beads and 12.8V/54Ah battery which life up to 50,000 hours. It provides higher lumens with lower energy consumption. Excellent as an area light, parking lot light, patio light or yard light. Main Features:
