

How many hydrogen stations are there in Wellington

Overview

Will New Zealand have a hydrogen refuelling station?

Hyundai New Zealand is currently working with several New Zealand companies to commission New Zealand's first hydrogen refuelling station. In May 2022 Tūaropaki Trust took delivery of a Hyundai NEXO and the vehicle will be run on the hydrogen being produced at Halcyon Power's green hydrogen plant at Mōkai.

How many hydrogen stations are there in New Zealand?

Even in Europe's most developed hydrogen market, Germany, the infrastructure remains patchy, with only 113 stations in operation. While New Zealand's hydrogen network is expanding, significant investment is needed to make it a viable nationwide option.

How many hydrogen refuelling stations are there worldwide?

According to the latest figures from LBST's H2stations.org report, the number of operational hydrogen refuelling stations worldwide has officially crossed the 1,000 mark. Specifically, by the end of 2024, around 1,160 stations were up and running – an impressive milestone for an industry once viewed as the distant future of clean mobility.

Why is Hyundai launching a hydrogen demonstration project in New Zealand?

Hyundai New Zealand has established its hydrogen demonstration project to showcase its FCEV NEXO and to share the globally leading technology with New Zealanders. Hyundai New Zealand is currently working with several New Zealand companies to commission New Zealand's first hydrogen refuelling station.
