

# **How much does a 5g base station cost in Southeast Asia**

## Overview

---

What is the global 5G base station market size?

The global 5G base station market size was estimated at USD 33,472.5 million in 2023 and is projected to reach USD 253,624.3 million by 2030, growing at a CAGR of 33.5% from 2024 to 2030. The surging demand for high-speed connectivity is a significant factor driving the growth of the 5G base station market.

How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

Is 5G finally gaining speed and scale in Southeast Asia?

The deployment of 5G appears to be finally gaining speed and scale. Yet, communications service providers (CSPs) in Southeast Asia continue to remain cautiously optimistic about its cost versus-revenue proposition.

How will Europe's 5G base station market evolve from 2024 to 2030?

The Europe 5G base station market is poised for significant growth from 2024 to 2030. The European regulatory environment supports 5G deployment, with policies designed to facilitate the rollout of 5G infrastructure. This includes streamlined permitting processes, clear spectrum allocation strategies, and efforts to reduce regulatory barriers.
