

How much does the new solar panel cost in Slovenia

Overview

The average cost of a residential solar panel system ranges from \$18,000 to \$43,000, depending on the system size, location, and available incentives. How much solar power does Slovenia have?

This total includes 191.5 MW from residential systems, 100.8 MW from commercial and industrial projects, and 6.5 MW from municipal installations. The 2024 installation marked a significant decrease compared to the 486 MW added in 2023, bringing Slovenia's cumulative solar capacity to 1.4 GW.

What is the cost of electricity in Slovenia?

The cost of electricity for household consumers in Slovenia in the second quarter of 2021 was 0.165 EUR per kWh. This represents a 7% increase over the first quarter. For non-household consumers, the average electricity price without value added tax was 0.089 EUR per kWh, which is a 2% increase.

What does Slovenia's new tariff system mean for solar?

In October 2024, Slovenia introduced a new tariff system that replaced peak and off-peak pricing with network fees that vary by time of day and season. This new system aims to encourage active consumption and is expected to boost investments in hybrid solar solutions.

Does Slovenia have a reliable electricity grid?

Slovenia boasts a generally reliable electricity grid with a robust transmission network that ensures uninterrupted and high-quality power delivery. However, grid reliability can be impacted during winter periods due to increased energy demand and reduced solar power output. ⁴ We can help you start your own solar module production company.

How much does the new solar panel cost in Slovenia
