

# How to change the solar container lithium battery station cabinet to solar power supply

## Overview

---

Can you put solar power in a shipping container?

There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit. Well, not really cheated, but I just went with a retail solar generator system instead of DIYing that part myself from à la carte components.

Should I add a battery to my solar system?

The approach depends entirely on your current equipment. If your existing solar system works well, AC-coupled battery addition offers the simplest upgrade path. This approach installs a separate battery inverter alongside your existing solar inverter, allowing both systems to operate independently.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Should I Retrofit batteries to my existing solar system?

Retrofitting batteries to existing solar installations presents unique challenges and opportunities. The approach depends entirely on your current equipment. If your existing solar system works well, AC-coupled battery addition offers the simplest upgrade path.
