

ŁOTWA SYSTEM

# Huawei Nauru Island solar container battery

## Overview

---

What is Huawei luna2000 battery storage system?

Huawei introduces its own PV battery storage system: LUNA2000. The Huawei LUNA2000 storage system has a scalable, modular design. A system consists of a power module and one or more battery modules. A battery module has a capacity of 5kWh and a discharge capacity of 2,5kWh.

What are Huawei's intelligent lithium battery solutions?

Huawei's intelligent lithium battery solutions provide dynamic peak shifting, transforming traditional backup power systems into efficient energy storage solutions that enhance system flexibility and reliability.

Which batteries are compatible with Huawei inverters?

The LUNA2000 battery module is compatible with single and three phase Huawei inverters. In one solar panel installation two batteries can be installed parallel. This makes a maximum storage capacity of 30kWh per inverter possible. LUNA2000 batteries are safe and reliable thanks to the lithium iron phosphate (LFP) battery cells.

How many batteries can be installed in one solar panel installation?

In one solar panel installation two batteries can be installed parallel. This makes a maximum storage capacity of 30kWh per inverter possible. LUNA2000 batteries are safe and reliable thanks to the lithium iron phosphate (LFP) battery cells. Faulty battery modules are automatically isolated to keep the system running.
