

# Huawei Romania solar container outdoor power BESS

## Overview

---

What is Romania's energy storage requirement?

Minister of Energy Sebastian Burduja reportedly declared at a conference that Romania's storage requirement is 4,000MWh, and that half would be covered by BESS and half by pumped hydro energy storage (PHES) technology.

How much is a self-consumption solar and storage project worth?

Minister of Energy Sebastian Burduja signing 24 financing contracts for self-consumption solar and storage projects, worth nearly €14 million. Image: Ministry of Energy. A 204MW battery energy storage system (BESS) project in Romania can progress after the government said it did not need to go through an environmental impact assessment (EIA).

How big would a Bess project be in Romania?

The project would be many times larger than the largest BESS online in Romania today, a 6MW/24MWh system from developer and independent power producer (IPP) Monsson (Premium access article).

Is Huawei a Bess provider?

Huawei has recently emerged as one of the largest BESS providers globally, in the top five according to research last year by Wood Mackenzie. The new coincides with the government increasing its financial support for energy storage via two schemes, both using funds from the EU's Modernisation Fund.
