

# **Huawei Shanghai Flow Battery Project**

## Overview

---

Why is a flow battery important to China's Energy Future?

It also plays an important role in regulating energy supply and frequency, making it a key component of China's sustainable energy future. Rongke Power, a pioneer in flow battery technology, previously developed the 100 MW/400 MWh Dalian system in 2022, the largest of its kind at the time.

What is Xinhua ushi energy storage project?

The 175 MW/700 MWh Xinhua Ushi Energy Storage Project, built by Dalian-based Rongke Power, is now operational in Xinjiang, northwest China. This groundbreaking project promotes grid stability, manages peak electricity demand, and supports renewable energy integration.

Does Huawei make power batteries?

While Huawei does not manufacture power batteries, it has shown increasing interest in upstream battery materials. Earlier in 2025, the company filed a separate patent on the synthesis of sulfide electrolytes — a key material known for its high conductivity but also high cost, sometimes exceeding the price of gold.

Why is Huawei developing a solid-state battery?

Huawei's design aims to boost safety and cycle life by mitigating degradation at this critical junction. Huawei's involvement in solid-state battery research reflects a broader trend among Chinese technology and automotive companies. While Huawei does not manufacture power batteries, it has shown increasing interest in upstream battery materials.

## Huawei Shanghai Flow Battery Project

---

### China Advances Energy Storage

4 days ago · In recent days, China's energy storage and battery industry chain has seen several major project developments. These include the groundbreaking of Ampace's Xiamen Phase II ...

---

### What's Behind China's Massive New Flow Battery ...

Dec 10, 2024 · China has established itself as a global leader in energy storage technology by completing the world's largest vanadium redox flow battery project.

---

### Understanding Flow Batteries: Key to China's Renewable ...

Dec 31, 2024 · This guide delves into the fundamentals of flow battery technology, exploring its unique advantages, operational mechanisms, and applications. Readers will gain insights into ...

---

### China's Liquid Flow Battery Industry Faces "Cost Challenges" ...

Apr 22, 2025 · For example, a recent project focused on lithium-ion flow battery technology has received approval from the relevant authorities, leading to the initiation of a significant project ...

---

### Flow Batteries Sit at Cusp of Rapid Growth in ...

China is accelerating the deployment of flow batteries, a promising long-duration energy storage technology. Companies are emerging, the supply ...

---

### Smart Renewable Energy Generator: Writing a ...

Jun 13, 2024 · [Shanghai, China, June 12, 2024] During SNEC 2024, Huawei held the FusionSolar Strategy and Product Launch on June 12, attracting ...

---

### Smart Renewable Energy Generator: Writing a New Chapter with

Jun 13, 2024 · [Shanghai, China, June 12, 2024] During SNEC 2024, Huawei held the FusionSolar Strategy and Product Launch on June 12, attracting more than 600 participants ...

---

### China's Liquid Flow Battery Industry Faces ...

Apr 22, 2025 · For example, a recent project focused on lithium-ion flow battery technology has received approval from the relevant authorities, ...

---

### Flow Batteries Sit at Cusp of Rapid Growth in China

China is accelerating the deployment of flow batteries, a promising long-duration energy storage technology. Companies are emerging, the supply chain is forming, and the project pipeline is ...

---

### Liquid flow energy storage, targeted by Huawei, has ...

The 1MW/4MWh all-vanadium liquid flow battery energy storage project built by Dehai Aike for Xizi Clean Energy has enabled Xizi Clean Energy's demonstration factory to achieve non-stop ...

---

SAIC Pens Deals to Build EV, Battery Plants in Shanghai's

Apr 29, 2025 · SAIC will put together a specialized operations and technical team of over 5,000 people for the project which will work closely with Huawei's engineers across the entire EV ...

---

Huawei's 3,000km solid-state battery patent with 5-minute ...

Jun 18, 2025 · Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra ...

---

China Sees Surge in 100MWh Vanadium Flow Battery Energy ...

Aug 30, 2024 · Key projects include the 300MW/1.8GWh storage project in Lijiang, Yunnan; the 200MW/1000MWh vanadium flow battery storage station in Jimusar, Xinjiang by China Three ...
