

# Hungary Pecs exports energy storage batteries

## Overview

---

Why should we invest in battery production in Hungary?

The current battery production facilities in Hungary, together with the growing number of end-of-life electric vehicles, offer good opportunities to develop innovative and sustainable recycling processes of the valuable battery materials. 6. Strengthening international co-operation.

Where is the battery industry located in Hungary?

Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants. Since 2016, a total of HUF 1,903.8 billion (EUR 5.29 billion) and approximately 13,757 jobs have been created as a result of working capital investments in the battery industry.

Who manufactures Car batteries in Hungary?

GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules. Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants.

Why is Hungary a good place to buy a battery?

Hungary is ideally located on the European battery map, thanks to its central geographical location, investments in cell and battery production facilities, the presence of large car manufacturers and its extensive supplier industry.
