

Indian base station communication system equipment

Overview

What is India's first chip-based 4G mobile base station?

In a historic move towards self-reliance in communication technology, the Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station. This milestone achievement was made possible by Signaltron, a Bangalore-based company, which developed and supplied the Sahyadri LTE base stations.

Who invented 4G mobile base station in India?

The Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station, procured from Bangalore-based firm Signaltron via the government e-marketplace portal. According to a top company official, Signaltron's founder Himamshu Khasnis informed that the chip used in the Sahyadri LTE base stations was developed by Signalchip.

Why do Indian base stations use indigenous chips?

The majority of base stations currently deployed in India rely on foreign-made chips, making Signaltron's achievement particularly noteworthy. Using indigenous chips enhances the security and control over the system, a critical factor in defense communications.

Are base stations made in India?

Most base stations deployed in India are not manufactured domestically, and even those that are made in India typically lack indigenous chips, which are the most strategic and crucial components of modern electronic devices and equipment.

Indian base station communication system equipment

Indian Army Launches First Made-In-India 4G ...

Jul 1, 2024 · The Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station, procured from Bangalore-based firm ...

Indian Army inducts first indigenous chip-based 4G mobile base station

Jul 1, 2024 · This marks the first time that an Indian system running on an Indian chip for complex communication technology has been inducted into the army, enhancing control over system ...

Mobile communication base station

Outdoor cabinet solution with base station equipment, power supply equipment, lead-acid batteries, temperature control system, transmission ...

Smart Power of Communication Base Station

Using 5G Internet of things technology, combined with data analysis, to improve the traditional power management level, and to achieve the visible, measurable, controllable, and linkage of ...

Indian Army inducts indigenous chip-based ...

Jun 30, 2024 · New Delhi: At first, the Indian Army inducted an indigenous chip-based 4G mobile base station. The Army procured the same from a ...

In A First, Indian Army Incorporates ...

Jun 30, 2024 · The Indian army has incorporated the first-ever indigenous chip-based 4G mobile base station, which it acquired from Bangalore ...

Indian Army Inducts First-Ever Indigenous 4G Base Station ...

Jun 30, 2024 · In a historic move towards self-reliance in communication technology, the Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station. This milestone ...

Indian Army Inducts First-Ever Indigenous 4G ...

Jun 30, 2024 · In a historic move towards self-reliance in communication technology, the Indian Army has inducted its first-ever indigenous chip ...

Indian Army Inducts First Indigenous Chip ...

In a pioneering move for India's defense technology, the Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station. ...

In A First, Indian Army Incorporates Indigenous Chip-Based ...

Jun 30, 2024 · The Indian army has incorporated the first-ever indigenous chip-based 4G mobile base station, which it acquired from Bangalore-based firm Signaltron via the government e

...

Indian Army Adopts Indigenous 4G Base Station Technology

Jul 1, 2024 · The base stations, Sahyadri Network In a Box (NIB) systems, weighing 7 kilograms, provide secure wireless communication for audio, video, and data. It is capable of functioning ...

Mobile communication base station

Outdoor cabinet solution with base station equipment, power supply equipment, lead-acid batteries, temperature control system, transmission and other ancillary equipment. The ...

Indian Army Adopts Indigenous 4G Base ...

Jul 1, 2024 · The base stations, Sahyadri Network In a Box (NIB) systems, weighing 7 kilograms, provide secure wireless communication for audio, ...

Indian Army Launches First Made-In-India 4G Base Station

Jul 1, 2024 · The Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station, procured from Bangalore-based firm Signaltron via the government e-marketplace ...

Indian Army inducts indigenous chip-based 4G mobile base station

Jun 30, 2024 · New Delhi: At first, the Indian Army inducted an indigenous chip-based 4G mobile base station. The Army procured the same from a Bengaluru-based firm, Signaltron, through ...

Indian Army Inducts First Indigenous Chip-Based 4G Base Stations ...

In a pioneering move for India's defense technology, the Indian Army has inducted its first-ever indigenous chip-based 4G mobile base station. Procured from the Bangalore-based firm ...

Army Inducts First Indigenous 4G Mobile Base Station with ...

Jun 30, 2024 · The majority of the base stations deployed in India are not made in India. This is the first time an Indian system running on an Indian chip for complex communication ...
