

# Industrial Energy Storage Batteries in North Africa

## Overview

---

Could locally produced batteries be a solution to Africa's energy crisis?

"With Eskom's new 1.4 GWh energy storage project, locally produced batteries may provide a good opportunity for a true local solution to an urgent need," says Naicker. "The lack of affordable batteries has prohibited the mass-penetration of much-needed energy storage solutions throughout Africa," he adds.

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

What are the most popular solar-plus-storage developments in Africa?

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec's 225MW/1,140MWh Kenhardt project in South Africa. The site started operation in late 2023 (pictured above).

Is solar PV a focal energy resource for Africa?

Solar PV, which, as reported by our colleagues at PV Tech in their write-up of the AFSIA report, reached 19.2GW in 2024, increasing by 2.5GW on 2023 levels, is becoming the focal energy generation resource for Africa.

## Industrial Energy Storage Batteries in North Africa
