

Industrial UPS uninterruptible power supply in Manchester UK

Overview

Which uninterruptible power supplies are the best?

UPS Systems plc offers a wide range of uninterruptible power supplies, including those from Riello UPS, APC UPS, and Eaton UPS. These brands are known for their high-quality power supplies and battery packs designed to go with them.

What is an uninterruptible power supply (UPS) system?

An Uninterruptible Power Supply (UPS) system is a device that provides reliable backup power to safeguard critical operations against power loss and other electrical disruptions. Our UPS solutions are built to provide a vital power bridge between mains failure and generator activation, no matter how complex or critical your operation.

Should you install an uninterruptible power supply?

Installing an uninterruptible power supply is an excellent way to protect your mission critical systems. However, it is no guarantee of continual power as UPS components and UPS batteries can fail if they are not properly maintained to a high standard.

Where is ups based?

Based in Bolton, Greater Manchester, we are ideally located to supply, install, maintain and hire uninterruptible power supplies throughout the whole of the UK. For more information on UPS call 01204 770990 or contact us online
