Inverter 72v recommended

Overview

For a 72V 200Ah lithium battery system, a pure sine wave inverter is recommended, especially if you plan to power a variety of devices, including sensitive electronics. Do I need a 12V or 48V inverter?

Simply put, if you have a 12V system, you need a 12V inverter; a 48V system requires a 48V inverter. Standard Pure Sine Wave inverters simply change DC power to AC power. Inverter Chargers handle this function plus allow you to charge your batteries off shore power or a generator. Renogy's 3500W Solar Inverter Charger is designed for a 48V system.

Can a 12V 72V inverter be converted to each other?

A1: No, 12V~72V cannot be converted to each other. You can only choose one of the input voltages, and the inverter input voltage must be consistent with the system input voltage. For example: a 72V inverter can only be used for a 72V battery. Q2: How to select the output voltage:.
