Inverter installation factory and price

Overview

How much does a solar inverter cost?

The solar inverter may operate as a battery inverter for Luna2000 instead of functioning as a solar inverter. This approach will require an additional cost for an inverter and additional installation work. The cost will likely be over \$2,000. However, this kind of installation approach is uncommon in Australia.

Who makes solar inverters?

Senergy is a professional solar inverter manufacturer with 20 years of experience in developing and manufacturing a range of solar inverters, including 1-10kW single-phase and 6-100kW three-phase on-grid solar inverters.
