Ireland purchases large amounts of energy storage equipment

Overview

Does Ireland need more energy storage?

This study documents industry perspectives from Ireland, a country which requires a significant increase in the development of energy storage due to security of supply concerns, its isolation from Europe's central transmission network and its reliance on wind energy as a primary intermittent renewable energy resource.

When will long duration energy storage be available in Ireland?

The Irish Electricity Storage Policy Framework, published after this data was collected, indicates that an immediate route to market for 500 MW of long duration energy storage is currently being developed, with further studies planned to support long duration storage from 2030 to 2040 (Government Of Ireland 2024a).

Can battery storage operators trade electricity on the All-Ireland wholesale market?

However, from next month, battery storage operators will be permitted to trade electricity on the all-Ireland wholesale market, opening a new source of supply in a move that one industry figure predicts could ease costs.

Is Ireland a good place to invest in battery storage?

Ireland hosts one of Europe's largest battery storage projects (Grundy, 2021) and an additional 1.5 GW of storage is earmarked for development (O'Sullivan 2023). In Ireland, first stage goals of greater levels of renewables on the system and improved grid security are addressed through the DS3 and Capacity Remuneration Mechanism (CRM).

Ireland purchases large amounts of energy storage equipment

Electricity Storage Policy Framework

Jul 4, 2024 · The framework addresses the grids immediate and near-term needs by supporting the incorporation of electricity storage from the immediate up until 2040 and presents 10 ...

SSE Acquires 120 MW/ 240 MWh Battery Storage Project in Ireland

Nov 8, 2024 · SSE Renewables, a developer specializing in renewable energy projects, announced that it has acquired the project development rights for a 120 MW/240 MWh grid ...

Battery storage to open new source of energy supply in ...

Oct 28, 2025 · However, from next month, battery storage operators will be permitted to trade electricity on the all-Ireland wholesale market, opening a new source of supply in a move that ...

SSE Acquires Major Battery Storage Project In Ireland's ...

Nov 7, 2024 · The Thornsberry battery storage system, located in County Offaly, is expected to provide grid-scale energy storage with a capacity of 120MW/240MWh, enough to power ...

SSE Acquires 120 MW/ 240 MWh Battery ...

Nov 8, 2024 · SSE Renewables, a developer specializing in renewable energy projects, announced that it has acquired the project development ...

Unlocking the potential: Insights from industry on barriers, ...

Dec 1, 2024 · The energy storage sector across Europe faces many financial, regulatory and policy barriers which has to date hindered development in many countries. This study ...

Ireland 'enters new era' with battery storage units ...

Nov 18, 2025 · The Irish electricity market enters a "new era" with this change, which represents a "major milestone" in the transition to a low-carbon energy system, while opening up ...

Why Ireland's 10 GW energy storage pipeline ...

Apr 28, 2025 · Ireland's market for battery energy storage (BESS) is likely to continue to decline after a brief ramp up around six years ago. Where ...

Why Ireland's 10 GW energy storage pipeline is delayed by ...

Apr 28, 2025 · Ireland's market for battery energy storage (BESS) is likely to continue to decline after a brief ramp up around six years ago. Where developers once had a degree of certainty ...

Critical role of battery storage in Ireland's ...

Jun 2, 2025 · Ireland is going to need up to seven times more energy storage than its current

capacity, say industry experts. John Daly reports At the ...

Irish energy industry calls for 500 MW of storage capacity by ...

Dec 3, 2025 · Irish grid operator EirGrid has set the proposed minimum procurement for long-duration energy storage (LDES) procurement at 201 MW, well below its initial 2030 goal of 500 ...

Critical role of battery storage in Ireland's energy plans

Jun 2, 2025 · Ireland is going to need up to seven times more energy storage than its current capacity, say industry experts. John Daly reports At the recent Energy Storage Global ...

Ireland's long-duration storage path is set: Four hours, high

Oct 20, 2025 · EirGrid, the transmission system operator (TSO) for the Republic of Ireland, has launched a consultation outlining how it will procure its first long-duration energy storage ...
