

Israel Communications 5G Base Station Project

Overview

What is 5G & how does it work in Israel?

The fifth generation of cellular networks, 5G, officially launched in Israel on Tuesday. It offers customers faster browsing speeds on their smartphones – if they can connect to it. Following some setbacks over tenders and upgrades, the network officially launched across the country.

Who has the best 4G/5G network in Israel in 2025?

Partner and Cellcom have the strongest mobile network and the best 4G/5G coverage in Israel in 2025. Pelephone has a great 5G network in Israel, Hot Mobile has the weakest 4G/5G mobile data network in Israel in 2025.

Does 5G affect EMF levels in Israel?

Within the context of 5G development in Israel, the Ministry of Communications has analysed the recommendations on the relationship between the network and EMF levels and announced that it will act, if necessary, to ensure the rollout of 5G networks in the country while maintaining standards of public health.

How many 5G sites are there in Israel?

The first offers 500 gigabytes of Internet surfing for NIS 60 per month for five years. The second offers a terabyte (1,000 GB) for NIS 70 per month for five years. Together, the providers say they have installed 250 5G sites throughout Israel, with more being added regularly.
