

Jakarta s latest energy storage project construction

Overview

What will Jakarta's data infrastructure look like?

In a significant step for Jakarta's data infrastructure, the facility will also incorporate a 120 MW-hour battery energy storage system and use renewable energy from the JIEP partnership as its main source of power, indicating a strong commitment to climate-aligned growth and energy sustainability.

Where did Indonesia sign a data centre deal with Aslan Energy Capital?

The deal was signed in Jakarta, the capital of Indonesia. Image: Aslan Energy Capital. Singaporean renewable energy developer Aslan Energy Capital has penned a new deal with Indonesia's Jakarta Industrial Estate Pulogadung (JIEP) to develop a 40MW data centre with a 120MWh battery energy storage system (BESS).

Where is Indonesia's New solar-plus-storage plant located?

A new 50MW solar-plus-storage plant near Indonesia's new capital city, Nusantara, on the island of Borneo, has been opened.

How much does Jakarta cost to build a new capital city?

The city was first established in February 2022 due to the rapid sinking witnessed in the country's current capital, Jakarta. The construction of the new capital city is expected to cost in the region of US\$35 billion.
