

# **Lithuania office building energy storage project**

## Overview

---

Via its battery energy storage system (BESS) arm, Trina Storage, it will deploy three 30MW/60MWh projects totalling 90MW/180MWh in Anyksciai, Skuodas, and Jonava via a partnership with EPC firm Stiemmo, with plans for multiple gigawatt-hours over the next 2-3 years. What is E-Energija doing in Lithuania?

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%.

What is Lithuania's first commercial battery storage site?

This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%. The project, located near the capital city of Vilnius, is expected to be operational by the end of 2025.

Why does Lithuania need reliable energy storage?

Uloza pointed to the growing demand for reliable energy storage as Lithuania's renewable energy sector expands.

What is Lithuanian Space Office?

To organize international partner searching and trade fair missions. Lithuanian Space Office is established in the Agency for Science, Innovation and Technology and provides information using „one - stop shop“ principle.
