

Malaysia allows the export of solar modules

Overview

Should Malaysia export solar panels?

The minister emphasised that besides solar panel exports, Malaysia is also strong in the E&E sector and should consider expanding into other consumer products. Previously, the US announced a tariff hike on solar equipment exported from Southeast Asia to protect its domestic industry.

Did Malaysia import solar panels from China?

Simply put, panels manufactured in Malaysia were exported to countries with tariffs against China, not purchased by local firms seeking to install solar. While Malaysian firms did use Chinese panels when installing local solar, they imported from China rather than using locally manufactured panels.

How many solar panels did Malaysia export in 2023?

According to Volza's Malaysia Export data, Malaysia exported 6,558 shipments of Solar Panel from Nov 2023 to Oct 2024 (TTM). These exports were made by 566 Malaysia Exporters to 878 Buyers, marking a growth rate of 269% compared to the preceding twelve months.

Is Malaysia a logistics hub for solar panels?

28 Oct 2024 Malaysia continues to serve as a logistics hub for solar panels amid the United States' (US) tariff hike on solar equipment from Southeast Asia, said Transport Minister Anthony Loke.
