Mali Tao's new solar container outdoor power

Overview

Why is Mali building a 100 MWp solar power plant in Safo?

The Malian government has launched the construction of a 100 MWp solar power plant in Safo, in partnership with China, to address electricity shortages. Mali is pursuing its ambition to diversify its energy sources by turning to solar power.

When will Safo solar power plant be built in Mali?

Just a few days after launching construction work on the Sanankoroba solar power plant, Mali's transitional government laid the foundation stone for the 100 MWp Safo solar power plant on 28 May 2024.

Will Sinohydro build a solar power plant in Mali?

The Chinese company Sinohydro will build a solar power plant with a capacity of 50 MW in the rural community of Safo in the south-east of Mali. This is reported by Malijet portal with reference to the Minister of Economy and Finance of the African country Alousséni Sanou. The contract was concluded for the amount of \$54.5 million.

How will Mali diversify its energy sources?

Mali is pursuing its ambition to diversify its energy sources by turning to solar power. On May 28, 2024, the President of the Transition, Assimi Goïta, inaugurated the Safo solar power plant in the Koulikoro region. The 100MWp plant will be built on a 228-hectare site and equipped with monocrystalline silicon photovoltaic panels.
