

Manufacturers who want to produce solar panels

Overview

What are the top 20 solar panel manufacturers in the world?

The top 20 solar panel manufacturers in the world include Sunpower, Hanwha Q Cells, and RECSolar due to their overall performance.

Who makes the best solar panels?

Last but not least on our list of the largest solar panel manufacturers is the Sharp Corporation, founded in 1912. Sharp is another Japanese solar panel manufacturer and one of the best solar panels manufacturers and electronics corporations in the world.

Where are solar panels made?

The Shanghai-based company has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees – of whom 1,500 work in the firm's eight research and development centres. China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems.

What percentage of solar panels are made in China?

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North America each produce around 2%. It therefore makes sense that eight of the world's nine largest solar manufacturers are based in China.
