

Micronesia solar DC Combiner Box Wholesale

Overview

Do you offer custom solar combiner boxes?

Here in SUNTREE, we offer custom solar combiner boxes to ensure that our clients' preferences are met. We provide custom features that introduce the general inverter requirements, including your logo, box measurement, components, DC inputs and outputs, and chosen over-voltage protection degree.

What is a combiner box?

Our combiner box is waterproof, dustproof and anti-corrosion, resisting harsh conditions for long-term and uninterrupted use. We offer multiple strings input up to 24 solar strings, with a maximum of 30 A per string. Series Isolator Switches with a max voltage up to 1500V DC widely meet various demands from PV power systems.

What is a DC combiner box?

DC combiner boxes link PV inverters and PV arrays, combining the output of a large number of strings to improve PV performance. Through the design of our combiner box, we enable easy integration of additional functions, such as the inclusion of switches and a second MPPT.
