

# **Mozambique solar energy storage power supply price**

## Overview

---

Recent pricing trends show 20ft containers (1-2MWh) starting at \$350,000 and 40ft containers (3-6MWh) from \$650,000, with volume discounts available for large orders. Why is Mozambique acquiring 25-30 MW of solar PV?

The procurement of 25-30 MW of solar PV is the first stage of implementation of the program which will contribute to the diversification of Mozambique's power mix and improve power supply quality, whilst ensuring low-cost energy for Mozambican end users.

How much solar energy does Mozambique have?

Mozambique has a potential solar energy yield estimated between 1,785 and 2,206 kWh/m<sup>2</sup>/year, resulting in a solar energy potential of 23,000GWh/year. In August 2019, the first grid-ready solar power station, the 40 megawatts Mocuba Solar Power Station, in Mocuba District, Zambezia Province, achieved commercial commissioning.

What energy sources are available in Mozambique?

Mozambique has abundant energy sources available for exploitation. As of 2021, the country was ranked first in energy potential of all the countries in the Southern African Power Pool (SAPP), with an estimated energy capacity of 187,000 MW. Available energy sources include coal, hydroelectricity, natural gas, solar energy and wind power.

Who owns land in Mozambique?

According to the Constitution of the Republic of Mozambique and as reflected in the Land Law (Law no. 19/97 of 1 October), land is owned by the State, but the rights to use and occupy land can be granted to users in form of a DUAT.
