

LOTWA SYSTEM

# Nassau Mobile Energy Storage Container 10kW

## Overview

---

What is container energy storage system (cess)?

Container Energy Storage System (CESS) is a modular and scalable energy storage solution that utilizes containerized lithium-ion batteries to store and supply electricity. These containers are designed to be easily transportable and can be installed in various locations depending on the energy needs of the user.

What is battery energy storage system (cess)?

CESS is an important Lithium Battery technology that can help to improve energy efficiency, promote sustainability, and increase energy resilience. How exactly does Battery Energy Storage System work?

Battery Energy Storage System works by storing electricity in lithium-ion batteries that are housed inside a container.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

Where is harvested energy stored?

Harvested energy is stored in Lithium LiFePO4 battery banks with it's own programmed BMS (Battery Management System).
