

ŁOTWA SYSTEM

New Delhi Simple solar container energy storage system

Overview

Who commissioned India's first standalone battery energy storage system?

India's first commercial standalone battery energy storage system (BESS) project with a 20MW/40MWh capacity at the distribution company level and a tariff approved by the electricity regulatory authority has been commissioned by power sector infrastructure investment trust IndiGrid in Delhi.

What is India's energy storage capacity?

India's total BESS capacity reached 219.1 MWh as of March 2024, according to Mercom India Research's report, India's Energy Storage Landscape.

Why should India invest in a Bess storage facility?

With a significant increase in renewable energy generation capacity, it is imperative that storage facilities are developed to help India and the world transition to clean energy. With an annual tariff nearly 55% lower than the previous benchmark, the project sets a new standard for BESS affordability in India.

What is geapp's Bess pilot project at kilokari substation?

Commenting on the project, Saurabh Kumar, GEAPP's Vice President for India, stated, "The BESS pilot project at Kilokari substation is a crucial step towards the development of integrated BESS in India.
