

LOTWA SYSTEM

# New Zealand solar panel custom manufacturer

## Overview

---

### Who are NZ solar installers?

Trusted by NZ installers. We supply premium solar panels, inverters, batteries, cables, and mounting systems — all in stock locally for fast delivery. Our global brand partnerships mean proven performance and reliability. Expect sharp pricing, responsive service, and tech you can trust — so your installs are faster, easier, and more profitable.

### Which brand of solar panels do you recommend?

Our preferred brand is Trina Solar which is Tier 1, and among the largest solar manufacturers in the industry with a proven track record and a culture of continual technological improvement. In most instances we offer the standard 330W panels but in a commercial setting the larger 440W modules may be more appropriate.

### What is a solar battery system?

Our solar battery systems combine solar power with storage, providing maximum independence, efficiency, and peace of mind during power outages. We're committed to guiding customers in their journey towards energy self-sufficiency. We do this by providing reliable, sustainable, and cost-effective solar solutions that deliver long-term value.

### Who are sustainable electricity Association of NZ (seanz)?

We are members of the Sustainable Electricity Association of NZ (SEANZ) and adhere to their strict quality assurance principles. SEANZ is an independent organisation representing organisations who research, manufacture, distribute, design, sell, finance and build Renewable Technologies and Projects in New Zealand and Pacific. Their Mission:
