# New energy storage project in Toronto Canada

## Overview

---

What is the Oneida battery energy storage project?

Oneida Battery Energy Storage Project, April 2025 TORONTO, May 07, 2025 (GLOBE NEWSWIRE) -- The Oneida Energy Storage Project ("Oneida") has officially entered commercial operations, becoming the largest battery energy storage facility in operations in Canada, and one of the largest globally.

Where is Canada's largest battery storage facility located?

The Oneida Energy Storage Project, Canada's largest grid-scale battery storage facility and one of the largest globally, has officially begun commercial operations. Located in Haldimand County, Ontario, the 250-megawatt (MW) / 1,000-megawatt-hour (MWh) facility is powered by 278 Tesla Megapacks.

Which energy storage projects are advancing in Canada?

In addition to BESS projects, there are also many Long Duration Energy Storage (LDES) technology-based projects advancing in Canada such as compressed air, pumped hydro and other non-lithium ion battery chemistries. About Energy Storage Canada: Energy Storage Canada is the only national voice for energy storage in Canada today.

Is Northland the largest battery energy storage facility in Canada?

The project was completed ahead of schedule and under budget and is the largest battery energy storage facility in operation in Canada. "Today marks a major milestone for Northland and the Oneida project," said Christine Healy, President & Chief Executive Officer of Northland.
