

North American home solar panels

Overview

Visit Tesla Website Product Origin and Manufacturing Locations: Tesla is one of the top names in electric technology. Their all-electric performance vehicles put them on the map, but the company has expanded.

Are solar panels made in USA?

Yes, solar panels are manufactured in the USA. In Q1 of 2025, about 8.6 GW of solar module manufacturing capacity was added to the record. Who is the largest manufacturer of solar panels in the US?

First Solar is the largest manufacturer of solar panels in the US with a production capacity of 10.6 GW as of June 2025.

Who makes the most solar panels in America?

Most homeowners save around \$50,000 over 25 years Who are America's top solar manufacturers?

Ohio-based First Solar is the largest manufacturer of solar panels in the U.S., producing about 25% more panels than the next-biggest American-made brand.

Why should you choose a solar panel that is made in America?

Choosing a solar panel that is made in the United States supports both American manufacturing and American jobs. Because these panels are designed and tested in the U.S., the specifications provided are true to the environment that you will use them in most of the time.

Are American-made solar panels any good?

It's worth pointing out that none of the American-made solar panels have cracked the very top tier of our performance rankings (those honors belong to Maxeon, VSUN, and REC, each of which builds their panels in other countries). But U.S.-made panels such as Qcells and Canadian Solar, are ranked close behind.
