Off-grid solar container hybrid type for base stations

Overview

Is there a subsidy on off-grid and hybrid solar systems?

As per new policies, there is no provision of subsidies on off-grid and hybrid solar systems. Please Note: The solar subsidy policies vary according to state. So please confirm the subsidy rates with your State Solar Department before installing the solar system.

What is a mobile power station?

The MOBIPOWER is the silent solution for your remote power needs at construction job sites, off-grid camps, or other applications. Whereas, diesel generators require fuel and are noisy, this mobile power station uses solar energy with no noise pollution.

Which solar panels do you use?

We use the highest quality solar panels, including LG, Peimar, and Canadian Solar; these solar panels harvest the sun's power and stores the energy in high-quality lithium batteries, controlled with an external BMS. Then the power is distributed using Victron Multiplus units, so this inverter/charger can transfer the power.
