

Oslo Communications 5g base station bidding

Overview

How many 5G mobile devices are connected to Telia's network in Norway?

Today, 1.6 million 5G mobile devices are already connected to Telia's network in Norway, with many customers accessing the internet solely through 5G wireless broadband. 5G's Norwegian numbers tell their own story.

Does Norway have a 5G network?

Telia has delivered a private 5G network to Norway's armed forces in which mobile traffic is separated from the rest of the national network, providing flexible and secure communication.

What are the 5G regulations in Norway?

There are no specific 5G regulations in place. However, the Norwegian Electronic Communications Act (Ekomloven) says that authorities may order providers with significant market power to meet any reasonable request to enter into or amend an agreement on access to electronic communications networks and services.

How has 5G impacted Norway?

5G's Norwegian numbers tell their own story. In the Arctic city of Tromsø, to give just one example, the combination of 5G and 4G has boosted average download speeds by 375%, and mobile data usage is up by a remarkable 900% since 2019. Stein-Erik Vellan, Head of Telia Norway: "A national 5G network is only the start of the future.
