

# **Ottawa communications base station manufacturer**

## Overview

---

What is a communication base station?

Communication base stations are an essential element in providing a stable communication environment for mobile communication devices such as mobile phones and smartphones. The installation of 5G base stations and compact base stations (small cells) in areas where signals are congested is presently proceeding apace.

What is the CRC doing with the city of Ottawa?

The CRC and the City of Ottawa are collaborating on the next generation of wireless: 5G. We have created a test site at Ottawa City Hall where we demonstrate significant 5G advances, and where collaborators can come to help us innovate.

What is the Ottawa lab?

The Ottawa lab is a strategic R&D site with end-to-end development capabilities, and our largest site in North America. The Open Lab has been a key site responsible for Ericsson Cloud RAN products worldwide.

What is a 5G base station & a compact base station?

The installation of 5G base stations and compact base stations (small cells) in areas where signals are congested is presently proceeding apace. Murata offers products that support high-speed, high-capacity communication, such as compact, low-loss capacitors and inductors, and high-frequency filters.
