

Outdoor solar light two beams

Overview

What are outdoor solar lights?

Outdoor solar lights simplify exterior illumination, offering beautiful, functional lighting without the need for wiring. These lights are available in a variety of forms to help improve home safety and security, light up patios and walking paths, or create a cozy glow around your lawn, garden, or pool.

Are outdoor solar lights easy to install?

In general, outdoor solar lights are designed with ease of installation in mind. They're ideal for consumers who want simple lighting solutions that don't require outdoor wiring. Lighting type and intended location will ultimately determine the installation process.

Which solar up & down lights work best?

All up and down lights deliver their best results during the brighter, longer days of spring and summer. Models with ALS (Adaptive Lighting System) are designed to optimise battery use and extend lighting time, especially during periods of poor weather or shorter days. For the best results with any solar up and down light:
