

# **Philippines solar container lithium battery energy storage project**

## Overview

---

How many GWh of battery energy storage in the Philippines?

With the latest deal, the Philippines has procured cumulative 6 GWh of battery energy storage systems (BESS) within days. China's Huawei has bagged its biggest BESS order to date and will supply the Meralco Terra Solar Project in the Philippines, which is considered the largest integrated solar and battery storage facility in the world.

What is Terra Solar Philippines & spnec?

The project is currently developed by Terra Solar Philippines, a subsidiary of SP New Energy Corp. (SPNEC), and will eventually feature 3.5 GWp of solar power and 4.5 GWh battery energy storage.

What is Terra solar project?

Image from Solar Philippines The Terra Solar Project is a collaboration between Terra Solar Philippines, Inc. (TSPI), Meralco PowerGen Corporation (MGEN), and SP New Energy Corporation (SPNEC). The facility will feature 3.5 GW of solar capacity and a 4.5 GWh battery energy storage system, spanning 35 square kilometers.

What is Masinloc battery energy storage?

The Masinloc Battery Energy Storage System (BESS) is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. We started our venture into battery energy storage technology in 2018 when we acquired this 10 MW system from AES Philippines.
