

Prefabricated solar container battery container in the Netherlands

Overview

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Will Alfen deliver a 4 hour battery energy storage system in the Netherlands?

Almere, the Netherlands, 28 January 2025— Alfen, an energy solutions specialist in Europe, has signed an agreement with FlevoBESS to deliver a 31.6MW/126.4MWh battery energy storage system, one of the first large scale 4-hour systems in the Netherlands.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Where is a new energy grid located in the Netherlands?

Located near Dronten, in Flevoland, a central part of the Netherlands, the system will support the region's ambitious energy transition goals by stabilising the grid, enabling renewable integration, and preparing for future expansions to 204MWh by 2028.
