

# **Pretoria computer room uninterruptible power supply sales**

## Overview

---

What is an uninterruptible power supply?

An uninterruptible power supply, also uninterruptible power source, UPS or battery/flywheel backup, is an electrical apparatus that provides emergency power to a load when the input power source, typically mains power, fails.

\*Note: A UPS will beep continuously when power is off. This is normal. The UPS is only a temporary power .more.

What is an uninterrupted power supply (UPS)?

An Uninterrupted Power Supply (UPS) enables you to keep working with minimal fuss and interruption no matter what happens around you. Prevent device damage and data corruption by using UPSs from our PC International online store's range.
