

# Price of home solar energy storage device

## Overview

---

Should you go solar with a battery storage system?

To limit power outages and make your home more resilient, consider going solar with a battery storage system. In order to find a trusted, reliable solar installer near you that offers competitive pricing, check out EnergySage, a free service that makes it easy for you to go solar.

How much does a solar system cost in 2024?

The median price for solar-only systems dropped to \$2.65 per watt in the second half of 2024, down from \$2.80 per watt earlier in the year. That's the lowest price EnergySage has recorded. Battery-backed systems saw an even bigger price drop: home solar + storage quotes fell from \$2.59 per watt in H1 2024 to \$2.40 per watt in H2 2024.

How do solar panels save money?

Government and utility incentives significantly reduce upfront costs. Federal tax credits, such as the Investment Tax Credit (ITC), cover 30% of the system's cost when paired with solar panels. Local rebates can add \$500-\$1,000 in savings depending on the state.

How much does a solar installation cost?

Man, US solar customers are really being fleeced for solar installs. In summer 2024, our most expensive quote was \$3.08 CAD / W, after installation, taxes, etc. and before any rebates or grants. That's only \$2.35 USD / W after currency conversion.
