# Price of solar modules purchased in Baku

## Overview

---

When will BC module prices be added in Europe?

In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

Where did photovoltaic cost data come from?

Photovoltaic cost data between 1975 and 2003 has been taken from Nemet (2009), between 2004 and 2009 from Farmer & Lafond (2016), and since 2010 from IRENA. Prices from Nemet (2009) and Farmer & Lafond (2016) have been converted to 2024 US\$ using the US GDP deflator, to account for the effects of inflation.

Will solar cell prices stabilize or rebound?

With demand faltering, cell prices continue to slide. Current price levels are already very close to cash costs, leaving almost no room for further decline. Whether solar cell prices can stabilize or rebound will depend on the actual implementation of industrywide production cuts, and the price trajectory of upstream wafers.
