Price quote for 100kW photovoltaic container at Australian airport

Overview

How much does a 100kW Solar System cost in Australia?

A high-quality 100kW solar system in Australia typically starts from around A\$39,999, making it a cost-effective choice for medium to large businesses, schools, warehouses, shopping centres, or community facilities. Installation usually costs between A\$1,000 and A\$3,000, depending on your roof type, system complexity, and location.

How much does commercial solar cost in Australia?

Most good commercial solar companies will have an architect and private certifier on hand to expedite the approval process. Good quality commercial solar power - over 30kW and less than 100kW - will, as a ballpark figure, cost around \$1,000 - \$1,300 per kW installed in Australia.

How much does a 100kW Solar System cost?

As per the table, the average cost of a 100kW solar power system as of August 2024 is \$87,920 including GST and the STC upfront rebate. The graph below - from our Commercial Solar PV Price Index - shows average price trends for 100kW solar systems since Solar Choice started keeping track in May 2014.
