

# **Quote for a 40-foot collapsible container for use on European islands**

## Overview

---

What is a 40 ft container used for?

40ft units can be used for commercial, residential, and shipping industry applications. There are a few types of 40-foot shipping containers, but the most common one is the standard dry 40' shipping container. These storage containers are easy to load and unload and can hold products that are dense or have a lot of weight.

Where can I buy used 40ft shipping containers?

Buy Used 40ft Shipping Containers at a lower cost for your storage needs at Shipping Container Depot. These high-quality, robust, slightly used containers are perfect for storing bulky objects that wouldn't fit a 20ft shipping container or a 20ft HC container.

How much cargo can a 40ft container hold?

Compared to a 20ft shipping container, a 40ft container can pack a whopping 2.53 m of cargo for every ton of weight. Meaning, a 40' container can hold up to approximately 26.76 tons of cargo. 40ft units can be used for commercial, residential, and shipping industry applications.

Can a shipping container be used to ship overseas?

In addition, the shipping container can also be used to ship overseas. These shipping containers are constructed from heavy-duty 14 gauge steel and are quickly becoming the most affordable and versatile option for different uses. Our 40' shipping containers come in various sizes, so you can find one that will fit your needs.
