Which country makes the most solar panels in the world?

Asia remains the dominant player in solar panel manufacturing, occupying all the top spots. This insight comes from Wood Mackenzie's report, "Global Solar Module Manufacturer Ranking H1 2024", which analyzes over 38 solar module manufacturers from 11 countries.

Who is the world's largest solar panel manufacturer?

With over 300 GW of solar modules sold to date, JinkoSolar has been the world's largest solar panel manufacturer for five consecutive years, thanks in part to its vertically integrated production capacity, spanning from wafers to modules. Following closely are LONGi Green Energy and JA Solar, ranked second and third respectively.

Why are solar panels important in China?

Solar panel manufacturers in China continue to play an important role in boosting the country's solar energy generation. In 2024, China accounted for about 57% of new global solar and wind additions, which is double the amount of renewable energy generated compared to regions like the US, Europe, and India.
