What is an uninterruptible power supply?

An Uninterruptible Power Supply is a backup UPS system which provides a continuous, stable and clean power supply to your electrical equipment and computer systems. In the event of a power failure the UPS system, which contains its own batteries, will continue to power your electrical equipment or systems for a set period.

What is an APC uninterruptible power supply?

An APC uninterruptible power supply (APC UPS) is a backup power source used during power failures. It delivers power to computers, peripherals, networks, servers, or data centers, allowing you to shut down the equipment properly.
