

# Riyadh solar Grid-connected Inverter Company

## Overview

---

Is solar energy the cheapest source of electricity in Saudi Arabia?

The Saudi government is set to raise electricity prices to market levels by the mid 2020's. At the commercial and industrial scale, solar energy is now the cheapest source of power for most on-grid and off-grid energy consumers.

We specialise in solar PV.

Who is zayel solar?

Zayel Solar is a solar equipment supplier based in Riyadh, Saudi Arabia. Founded by highly experienced professionals in the field of solar energy. We supply complete turnkey solar solutions and systems in the whole kingdom with highest technical support and after sales service.

What is a solar inverter?

A solar inverter is an integral component of the solar electric power system responsible for inverting energy from direct current (DC) to alternating current (AC). Different types of solar power inverters might be used depending on a solar system's varying requirements. A solar inverter converts DC power from solar panels into AC power that can be used by your home or business.

What are the two main types of solar inverters?

Broadly, there are two main types of solar inverters:

- Microinverters have a higher upfront cost but can provide long-term savings by being exceedingly energy efficient.
- String inverters are primarily used to save upfront system costs.

## Riyadh solar Grid-connected Inverter Company

---

### Solar Inverters and Solutions , Schneider ...

Specializes in energy management and automation. Our solar business provides complete solutions, including advanced solar inverters for ...

---
