

# San Jose LiFePO4 Battery Pack

## Overview

---

What are LiFePO4 batteries used for?

With the insight into the customer's special power needs and over years well-experience, we designed some standard lifepo4 battery packs that widely used in emergency lights and exit signs, solar street lights, medical monitoring equipments.

Can A LiFePO4 battery pack be customized?

It is available to custom the lifepo4 battery packs based on your mechanical design and prototypes testing, whatever high voltage, high capacity, special battery shape, high power can be meet. Please contact us to get specifications and quotation for evaluation now!.

How do you charge a LiFePO4 battery?

Wrap cells in fish paper. Seal connections with heat shrink tubing. Mount pack in a ventilated case (prevents thermal runaway). Charge at 0.5C (e.g., 50A for 100Ah pack) using a LiFePO4-compatible charger. Monitor cell voltages - deviations  $>0.1V$  indicate balancing issues. Store at 50% charge if unused for months.

What is a 24v-72v LiFePO4 battery?

The multiple advantages of our 24V-72V LiFePO4 lithium batteries over traditional packs lie in their superior characteristics for each important criterion. Incredible power density is packed into Limodish batteries. This works best for applications with stringent requirements on weight or size, such as medical equipment and electric vehicles.
