

Selling outdoor power in Mexico

Overview

Why did Mexico Open a wholesale electricity market in 2016?

At the beginning of 2016, Mexico's power market was opened for wholesale trading for the first time in almost 70 years. By moving government units and creating company independence, the Mexican energy reform enabled the electricity market to open up to private investors to increase market competition and build a wholesale market.

What is the power market like in Mexico?

The Mexico power market demonstrates moderate concentration: CFE holds more than half of the installed generation, Iberdrola, Enel, Acciona, and Sempra Infrastructure collectively add 18%, and the next 15 producers share the remainder.

Why did Mexico reform the power market?

This reform marked a pivotal moment, opening up Mexico's power market to private investors and fostering competition. Previously dominated by government entities like the Federal Electricity Commission (CFE), the market now welcomes private companies, encouraging innovation and modernization.

What is the future of power generation equipment in Mexico?

The market for power generation equipment in Mexico is estimated to increase 1.05 percent from 2022-2023, while exports from the United States to Mexico are expected to increase 0.93 percent.
