

Serbia Small solar container communication station EMS Construction

Overview

How many renewable power plants are in Serbia?

In the previous interval, bank guarantees for solar, wind and hydropower projects and substations, within the transmission system in Serbia, were provided for 28 facilities with an overall capacity of 4,000 MW, according to EMS. [Home](#) » [News](#) » [Renewables](#) » [Serbia's TSO EMS signs grid connection contracts for 11 renewable power plants.](#)

How many EMS projects have been signed in 2025?

The contracts for the grid connection studies have been signed for 22 projects, and grid connection contracts have been signed for 11. In the next interval that started on March 1, 2025, EMS has received eight applications, including two for batteries, the first such projects in Serbia.

Who signed the Ems and EPs grid connection contracts?

The contracts were signed by EMS CEO Jelena Matejić and EPS CEO Dušan Živković. The grid connection contracts were signed for Salaš and Sikole (490 MW in combined capacity), Jablanica (421.5 MW), Bački Gračac (65.9 MW) and Srpska Kuća (27 MW). Their total approved connection capacity is 1,004.4 MW.

When will the EMS project start?

Minister of Mining and Energy Dubravka Đedović Handanović said in January that the first works on the project are expected by early 2026. Every year EMS organizes two intervals for grid connection studies: from March 1 to June 30 and from September 1 to December 31.
