

Solar 255k inverter

Overview

What is a Solis 255k-ehv-5g solar inverter?

Powerful solution for large solar installations The Solis 255K-EHV-5G grid-tied solar inverter is a high-tech device ideal for large-scale commercial and industrial projects. With a rated power of 255 kW, three-phase connection, and 14 independent MPPTs, this model ensures maximum energy output even under the most challenging conditions.

What are the features of a 3 phase string inverter?

250-255kW three-phase series string inverter have Maximum 28 strings input, support "Y" type connection in DC side. Maximum string input current 15 A, support bifacial modules access. Supports anti-PID function to improve system efficiency. High-precision intelligent strings monitoring reduces fault location time.

Is the Solis 255k-ehv-5g legal?

The price of the Solis 255K-EHV-5G is based on the manufacturer's official price list and includes certified products with warranty and technical support from Lirik Solar. This is a fully legal product with no counterfeits, and you can always confirm current purchase terms with our managers via phone or email.
