

LOTWA SYSTEM

# Solar Outdoor Onsite Energy Wireless Solar

## Overview

---

What are solar-powered WiFi access points?

Solar-powered WiFi access points offer a robust foundation for solar powered internet. It involves efficient solar energy management and the smart capabilities of IoT solar panels. The development of this technology opens doors for a more connected, greener world, empowers communities, and closes the digital gap.

Are solar-powered Wi-Fi hotspots a natural resource in rural areas?

Connectivity may not be a natural resource in rural areas, but sunlight definitely is. Our partner, Bartech, implements self-sufficient, solar-powered Wi-Fi hotspots using Teltonika's RUT956 mobile router. These Wi-Fi hotspot stations utilise a solar panel connected to a battery and charge controller to generate, store, and manage solar energy.

How do I purchase a ventev Wi-Fi Solar System?

For more information or to purchase, contact Ventev: 800.851.4965 or [sales@ventev.com](mailto:sales@ventev.com) Ventev's Wi-Fi Solar System is a complete, fully-integrated power enclosure system that is pre-wired and pre-assembled for on-site installation of outdoor access points requiring PoE/PoE+ power.

How do solar-powered Wi-Fi hotspots work?

Our partner, Bartech, implements self-sufficient, solar-powered Wi-Fi hotspots using Teltonika's RUT956 mobile router. These Wi-Fi hotspot stations utilise a solar panel connected to a battery and charge controller to generate, store, and manage solar energy. Also connected is an IoT controller, which collects power efficiency data.
