Solar-Powered Containers for Island Use

Overview

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Is solardeck a good choice for coastal shipping?

“The test results show that SolarDeck performs well in the tougher environment – in terms of salinity and rougher sea states – of coastal shipping. Because salt water can drain freely from the solar panels, there’s no chance of a salt crust forming.
