

Solar container communication station inverters were arrested

Overview

Do Chinese solar power inverters have undocumented communication devices?

However, undocumented communication devices have reportedly been found in some Chinese solar power inverters. And over the past nine months, such devices—including cellular radios—have also been found in some batteries from Chinese suppliers.

Do solar inverters contain undocumented cellular radio devices?

These inverters, which are essential components that convert direct current from solar panels into alternating current usable by the electrical grid, were found to contain undocumented cellular radio devices not disclosed in product specifications or technical documentation.

Do Chinese solar power inverters have a firewall?

While such inverters allow remote access for updates and maintenance, utility companies usually install firewalls to block direct communication back to China. However, undocumented communication devices have reportedly been found in some Chinese solar power inverters.

Are Chinese solar power inverters connected to critical infrastructure grids?

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected to critical infrastructure grids across the country.

Solar container communication station inverters were arrested

U.S. Authorities Investigate Communication Devices in Solar Power Inverters

May 15, 2025 · U.S. energy officials have intensified scrutiny of Chinese-manufactured components in renewable energy infrastructure after the identification of undocumented ...

Ghost in the machine? Rogue communication devices found ...

3 days ago · While inverters are built to allow remote access for updates and maintenance, the utility companies that use them typically install firewalls to prevent direct communication back ...

U.S. officials Investigating Rogue ...

May 15, 2025 · U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within ...

Undocumented communication devices found in Chinese solar inverters

May 15, 2025 · Rogue communication devices have been found in some Chinese solar power inverters and batteries, two people familiar with the matter told Reuters, raising concerns of ...

U.S. discovers illegal devices in Chinese solar inverters, ...

May 16, 2025 · An unidentified illegal communication device has been found in Chinese solar inverters, prompting U.S. energy authorities to reevaluate security risks for renewable energy ...

Chinese solar inverters found to have rogue components

May 16, 2025 · Rogue communication devices not disclosed in product documents have been discovered in some Chinese solar power inverters in the US, Reuters reported this week citing ...

U.S. officials Investigating Rogue Communication Devices in Solar ...

May 15, 2025 · U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters ...

Undocumented Devices In Chinese Solar Inverters Raise ...

On May 14, 2025, U.S. energy officials began investigating Chinese-made solar power inverters after discovering undocumented communication devices, including cellular radios, inside some ...

Rogue Communication Devices Found in Chinese Solar Power Inverters

May 16, 2025 · Power inverters, which are predominantly produced in China, are used throughout the world to connect solar panels and wind turbines to electricity grids.

Ghost in the machine? Rogue communication devices found ...

May 14, 2025 · The rogue components in these power inverters provide additional, undocumented communication channels that could allow firewalls to be circumvented remotely,

with ...

Ghost in the machine? Rogue communication ...

3 days ago · While inverters are built to allow remote access for updates and maintenance, the utility companies that use them typically install firewalls ...

Ghost in the machine? Rogue communication ...

May 14, 2025 · The rogue components in these power inverters provide additional, undocumented communication channels that could allow ...

Unmasking the Danger: Rogue Communication Devices ...

May 14, 2025 · Reuters reports the discovery of rogue communication devices embedded in Chinese-made solar power inverters, raising concerns over potential security risks and data ...
