# **Solar container outdoor power of EK in Qatar**

## Overview

---

How many solar power plants are there in Qatar?

Qatar has since built two more solar plants in the country: the Ras Laffan and Mesaieed solar plants, which combined generate 875 MW. The newest Dukhan solar power plant is set to be one of the largest in the world. It will be developed in two phases, reaching a total electricity generation capacity of 2,000 MW by mid-2029.

Will Qatar build a solar plant in Dukhan?

Qatar invests in renewable energy, building a solar plant in Dukhan. (Credit: QatarEnergy) Qatar's future is looking solar with a new solar plant project on the way. The country's first large-scale solar power plant, Al-Kharsaah Solar PV Power Plant, covers an area of 10 square kilometres.

Why is Qatar launching a solar power plant?

The start-up of the Al Kharsaah solar power plant represents a milestone in the country's energy history, since it is set to produce 10% of its peak electricity demand at full capacity. Over its lifespan, it will also enable Qatar to reduce its CO<sub>2</sub> emissions by 26 million metric tons.

What is Qatar's first large-scale solar power plant?

The country's first large-scale solar power plant, Al-Kharsaah Solar PV Power Plant, covers an area of 10 square kilometres. The 800 megawatt (MW) plant was inaugurated in October 2022 to support Qatar's electricity demand for FIFA World Cup Qatar 2022™.
